

LEARNING EXPEDITION

BRUSSEL EDITION

JANUARY 2024

Co-funded by
the European Union

SOCIAL TECH ACADEMY

The Social Tech Academy is an Erasmus+-funded project that aims to create a European platform of resources on digital professions in the social economy and social tech. The project partners are EginA SARL (Italy), Fundacion Esplai (Spain) and Pour la Solidarité (Belgium).

We are targeting students, people undergoing professional retraining, trainers in the social economy and managers and executives in the social economy.

Our platform will bring together training courses, themed webinars, interviews and portraits of professionals, job descriptions and job offers. Our aim: to provide the keys to entry and guidance in the digital transformation of the SSE in the European Union.

This platform will be operational in 2023. It will be available in four languages: French, Spanish, Italian and English.

The project was launched in early 2022. The project began with a study of how digital skill-based in the social economy could be improved. To do this, we carried out a literature review and a quantitative survey involving 15 people and based on over 100 interviews in 4 European countries (France, Belgium, Italy, Spain). The conclusions of our scoping phase are freely available [here](#).

EXPEDITION LEARNING : PLANNING

MONDAY

Morning

- 9h30-10h30: Ice Breaker
- 10h-12h: Presentation of the program
+ Moodle

Lunch (12h00 - 14h00)
